

We Are Proud of You!

Educational Support Professionals

Your union deeply appreciates what you do every day to help students succeed in school. Your dedication, compassion, and hard work make a difference! Each and every EA plays an invaluable role in providing great education opportunities in every school in MPS.

You are an educational support professional (ESP). The ESPs within the MTEA are all: paraprofessionals, general educational assistants, school safety assistants, child care workers, and DHH interpreters.

We want to recognize and celebrate you on your special day. **Wednesday, November 18,** is National Education Support Professionals day.

We invite you to celebrate in two special ways.
